

# 2015 Enduro of Subdued Excitement: Course Routing

The packet pickup, start and finish will be at the Larrabee State park campground area (South Day Use shelter).

## Race Stages:

1. **Double Black Diamond Trail.**
2. **Two Dollar Trail.**
3. **Upper Chuckanut Ridge Trail and LEFT down Galen's Step.**
4. **Double Black Diamond Trail to Double Down.**

### Transition stage 1:

From Larrabee campground, follow the signs and go directly across Chuckanut Drive and up to the Interurban Trail. Go RIGHT on the Interurban trail and then go LEFT (up) towards Fragrance Lake Road next to the sewage ponds. NOTE: You can either take the trail next to the sewer plant or go through the Clayton Beach/Lost Lake parking lot and go LEFT through the gate.

Stay straight on this road and keep going PAST one split in the road and also past the Fragrance Lake turnoff until you hit Cleator Road. Then, turn RIGHT on Cleator road and climb up to the Cyrus Gates Overlook parking lot. There is a quick push up on the LEFT side of the parking lot (directly across from the viewpoint) that goes to the top of Double Black Diamond and the Upper Ridge trail.

**NOTE: A Fanatik Bike bacon station with water coolers will be at the parking lot up top.**

### Race Stage 1- Double Black Diamond Trail

From the top of the mountain, go down (riders RIGHT) Double Black Diamond trail to Lost lake trail. This will utilize a newly rerouted section of trail in the middle of the trail. The stage will end RIGHT before the trail exits onto Lost Lake Trail (old exit).

### Transition Stage 2:

Go RIGHT up the Fragrance Lake Road and turn LEFT through the split rail fence towards Fragrance Lake. Go straight across from the entrance and go up the push up/ hike-a-bike trail. Bypass the trails on the LEFT and continue up to the RIGHT where the start of the two dollar stage will start.

### Race Stage 2 – Two Dollar Trail

The stage will start with a technical pedaling section with lots of off cambers and roots before it descends and connects riders into the more established section of the Two Dollar Trail. Racers will finish after the last RIGHT hand switchback before reaching the Cleator Road.

**NOTE: The Freehub Magazine Aid station will be located at the exit of 2 Dollar Trail and stocked with Clif products and water coolers.**

### Transition Stage 3:

From the bottom of Two Dollar Trail, go RIGHT (up) Cleator Road and ride all the way back to the Cyrus Gates parking lot and push back to the top of the Mountain.

### Race Stage 3 – Upper Chuckanut Ridge Trail to Galen's Step

From the top of the mountain, go down (riders LEFT) the Upper Chuckanut Ridge and take the LEFT turn down towards Cleator Road. If you get into a big section of hike-a-bike, you've missed the LEFT turn. This stage will end ~100 feet before the road.

**Transition Stage 4:**

After completing stage 3, go LEFT on Cleator Road back to the Cyrus Gates Overlook parking lot. Go back up the quick push up to the top of Double Black.

**Race Stage 4 – Double Black Diamond to Double Down**

From the top of the mountain, go down (riders RIGHT) the Top of Double Black Diamond. This will again utilize a newly rerouted section of trail in the middle of the trail. Just before the exit, go LEFT at the Y on a newly routed section that crosses Lost lake Trail. Follow this section down to Fragrance Lake Road. Continue down Fragrance Lake Road for 200 feet and take a RIGHT into Double Down. Double Down contains several rock rolls with optional lines that will give riders easier/harder lines through those sections.

**Transition Stage 5:**

After completing Double Down, riders will take a RIGHT immediately after exiting to Fragrance Lake Road. This will connect to the Interurban trail where riders will go RIGHT for 200 yards and then go LEFT downhill and cross Chuckanut drive and back to the Larrabee Campground. Please pay attention when crossing the road here!

**PLEASE NOTE: Larrabee State Park is extremely popular with families hiking, dog walkers and equestrians, so please be extra courteous to all trail users while practicing for the enduro. Also, Cleator Road is open to the public, so expect vehicle traffic on it.**
